I was with Mattie yesterday and she was very sick. She had a very bad cough and her nose was running real badly. Mattie could not get any rest, so I picked her up out of her sleeping and called her grandmother at work. I told her grandmother that I was very concerned about Mattie's cough and if she could talk to Becky (Mattie's mother) about her medicine. I told her if Becky ~~could~~ would bring her medicine in and put it in her bag. I could give it to her because I couldn't stand seeing her that way.

Either the end of December or the beginning of January, Becky brought her new boyfriend to the church. Mrs. Genee Bent

to the car and made him get out  
so we could meet him.  
Because we didn't want  
her to have just any man  
around our Mattie. So when  
he came in and introduced  
himself, Backy was holding  
Mattie and she was playing  
and laughing with Mattie. I  
like he cared so much about  
her. He acted like they were  
a very happy family.
